

# LENS CLEANING "KITS"

HLC

Display box includes Lens Cleanse "Kits"

HLC12

Hoodman makes lens cleaning convenient and quick with its new "Lens Cleanse" lens cleaning kits. Enzyme activated / Eco responsible.

Specially formulated enzymes breakdown grime to super clean photographic lenses and filters without harming delicate optical coatings or the environment. Convenient wet & dry kits store in your camera bag ready to tear open as needed. No need for bulky, leaking, caustic chemical bottles to clean your lenses.

The Enzymes formulated by Hoodman are naturally occurring substances whose sole purpose is to break down organic matter. Organic plant enzymes make up the powerful cleaning agent in Hoodman's Lens Cleanse natural lens cleaning kits.

The delicate optical coatings of your lenses and filters are never compromised because Lens Cleanse enzymes do not hurt optical coatings.

Even the cleaning kit towelettes are special. Lens Cleanse towelettes are made up of super soft natural wood fibres that will not scratch lenses or filters.

Hoodman Lens Cleanse natural lens cleaning kits are good for your lenses, filters and the environment too!
