

Levelling Centre Column For 055 & 190 Series

Quick, easy levelling for photo and video heads. Hassle free!

055LC / 190LC

The new 055 and 190 Levelling Columns allows quick levelling of photo or video heads without the need for time consuming adjustments to the length and angle of each single tripod leg.

The half ball is locked and unlocked via a turning grip on the bottom of the centre column.

- Top plate angle independent from the rest of the tripod
- Built-in bubble spirit level
- 055LC fits all MT055 and MK055 models
- 190LC fits all MT190 and MK190 models

Material	Aluminium
Pay Load	5kg
Weight	055: 500g, 190: 455g
Max Height	40.40cm
Bubble Spirit Level	1

Short Centre Column For 055 & 190 Series

055XSCC / 190XSCC

The legs can be set at the third angle of inclination (about 60°) and you can move the camera up and down to perfectly adjust your shot, this shorter column replaces the one supplied with the tripod.

- Shorter column improves tripods positioning flexibility
- Built-in bubble spirit level

Material	Aluminium
Max Height	24.80cm
Min Height	7cm
Weight	055: 187g 190: 153g
Bubble Spirit Level (no.)	1

190 Low Angle Adaptor

190XLAA

The 190 Low Angle Adaptor allows great shooting creativity, when placed on the top casting and combined with the 4 leg angles of the new 190 tripods.

- Allows to reach ultra-low positions
- Compatible with 190 series

Material	Technopolymer
Weight	36g
