

# Offset U-Hook

## Perfect accessory for the Super Clamp to raise lighting power packs off the floor and other accessories

This unique and exclusively designed offset U Hook is the perfect partner for the Manfrotto and Avenger Super Clamp\*, benefiting from a max payload capacity of 15kg and incorporating a 16mm Hexagon stud to provide Anti-Rotation compatibility.

Designed in the first instance to support power packs for studio lights that feature a centrally placed carry handle, which are incompatible or impracticable to use with a standard U-Hook in order to raise the pack off the floor.

In addition this product has multiple applications in and out of the studio including supporting accessories such as counterweights, cables, props and fabrics to name just a few.

Length	Height	Depth	Top Attachment
13.5 cm	6 cm	3 cm	16mm Hexgon stud [Super Clamp AR]
