

PIXI Smart

Mini Tripod Black with Universal Smartphone Clamp

PIXI Smart is the perfect choice for anyone who uses their smartphone on a daily basis to take spontaneous pictures. The PIXI black now boasts a Universal Smartphone clamp, with multiple ¼" thread attachments, which enables its use with most of the smartphones currently on the market, ensuring great flexibility and ease of use in any type of circumstance. The PIXI Smart features double functionality: it works as a stable holder and can also be used as a comfortable ergonomic grip to capture great videos, take selfies and incredible images that really stand out from the rest.

The PIXI Smart is made of stainless steel and Adapto to guarantee top quality and a tactile finish. Its solid construction is a secure base and a comfortable handle for every situation. Moreover, the Universal smartphone clamp is also available as a standalone accessory, so that every photo/videographer in possession of a ¼-thread support can set their creativity free whenever they so desire.

Portability

Weighing just 215 g and only 26 cm in length when closed - the PIXI Smart tripod is the perfect size to accompany you everywhere.

Compatibility

Thanks to its universal ¼" screw thread and its excellent stability, PIXI can be used with a huge variety of digital devices: from the iPhone® (with KLYP+) to Compact System Cameras and even entry level DSLR's.
