

# AVIATOR COLLECTION BAGS HOVER 25

## Aviator Hover 25 Backpack MBAVBPH25

A professional backpack that is 100% outdoor ready and protects **everything you need for an action-packed day**, including an aerial and ground camera – DJI Mavic & OSMO - sharing a screen, app & workflow and personal gear.

The Aviator **Hover-25** is built to **solve the real-life issues** pilots face. It has **dedicated pockets for a Mavic & OSMO**, which can be **accessed quickly**, without needing to put the bag down. The pack is designed with specific, delicate equipment in mind and **keeps it smartly protected**.

It features an **insulated pouch** that protects batteries and the renowned **Manfrotto Protection System**, which keeps control sticks safe and moving parts of the gimbal stabilizer steady. Pilots can also store their iPad securely in its dedicated compartment and their personal gear organised and easy to find in the pack.

The **Hover-25** enables pilots to enjoy an enhanced user experience and capture every moment as they create exciting footage, and always have their DJI Mavic or OSMO kit or spare propellers within easy reach without having to take the pack off. It is made of highly-resistant, breathable outdoor materials with an appealing minimalist aesthetic.

## D1 Backpack for DJI Phantom Drones

The D1 backpack is designed with careful attention to the latest drone design being extra-lightweight, water-resistant and extremely spacious.

This backpack carries a drone with its remote control and all its accessories, plus an additional camera, tripod and laptop.

The D1 is perfect for quickly changing location. With its propellers mounted, the drone safely attaches onto the outside of the pack by simply opening the front zip, making it very easy to get out or put away when necessary. The drone stays safely cushioned inside and the propellers fit outside the bag.

The D1 Drone backpack also features a rain cover and a dedicated space for a laptop up to 17" and a tablet, enabling users to check their work and share it in real time.
