

Pro Light Reloader 55

Roller bag for DSLR/camcorder

MBPLRL55 Replaces MBMPL50BB

Manfrotto Pro Light Reloader-55 camera roller bag is an **international carry-on size*** camera roller designed for a professional photographer and videographer who is looking for a protective, comfortable & stylish bag to travel with.

It fits typical DSLR camera sets (e.g. 3 bodies with 8 lenses), super-tele DSLR set (e.g. 1 body with 400mm f/2.8 lens attached and 3 more lenses) & camcorder with lighting set (e.g. disassembled Canon C100 with 2 light kits). It is designed to fit in most international airline carry-on requirement*.

You don't need to worry the safety of your equipment if they are always near you.

4-stage handle to give more space for the gear while maintaining a good strength. **Smart divider design** enables the bag to be fully customized to fit your shooting needs, no matter it is a full day photo shoot, video assignment, intercontinental job or just your own holiday trip.

High quality Pro Light **Rip-Stop nylon fabric with water repellent treatment** are used to construct the outer shell of the bag to provide solid protection to the gear from external shock & extreme weather condition. Special attention is also put to the corners & the bottom to resist wear down.

The wheels are made by TPU+ABS material that ensure comfort & long lasting wheeling. The standard 84mm bearing **wheels can be easily replaced by user.**

Build-in replaceable **TSA-approved combination zipper lock** ensures a hassle-free travel experience.

Independent padded pockets for 17" laptop & 10" tablet are positioned outside the equipment zone. They can be taken out quickly on the baggage check point without bothering the main zipper. It can carry a tripod and comes with a rain cover.
