

Manfrotto PRESENTS

LUMIMUSE 8

Breakthrough lighting solutions

- The power of 8 bright, high colour rendition continuous LEDs
- Designed in Italy, compact and lightweight aluminium body
- Powered by built-in, USB-rechargeable Li-Pol battery
- Comes with accessories, compatible with a variety of support solutions
- Use easily with the Lumimuse app (free on iOS App Store)
- Full light control from 0-100 %

Manfrotto introduces a brand-new addition to the Manfrotto Lumimuse range: the new **Lumimuse 8 with Bluetooth Wireless Technology** leverages **built-in Bluetooth wireless technology** to give users **full control of light output** (from 0-100%) from their iOS device with the **Lumimuse app available for free on the iOS App Store**.

Manfrotto's new Lumimuse series 8 led light is the larger-size model in the Lumimuse range. Made of highly resistant, impeccably finished aluminium, it is sturdy yet so portable you can have one or more in your kit bag and use it to enhance your creativity at any time. In fact, you won't even realise you're carrying it. Leverage the power of eight Surface Mount Technology continuous LEDs for many styles, including portrait and still life photography, interviews or video blogs. Combine several together to achieve highly creative, lifelike lighting set-ups.

Powered by a **built-in, USB-rechargeable lithium polymer battery**, it has an impressive runtime of up to 60min. The **Manfrotto Lumimuse 8 Bluetooth edition box** also includes **three colour filters** and a **diffuser** to change colour temperature and light diffusion, a **standard 1/4" thread** for attachment to a tripod or alternative support solutions, such as the Pixi table tripod. An **HDMI charging cable** is also included in the box, as well as static shoe mount.

The Lumimuse App is available for free download on the App Store. This user-friendly interface includes a step-by-step guide on how to use the Lumimuse 8 Bluetooth LED. It controls up to 13 LEDs, including Manfrotto's LYKOS LEDs equipped with a dongle. It features Help screens that appear when the app is first launched to walk users effortlessly through all its functionalities. Help can be skipped or switched off and on via the iOS device's settings.

Several Manfrotto products can be enjoyed with the Lumimuse 8 Bluetooth edition, including Lumimuse ball head and filter kits, Arms, Twist Grip System (smartphone rig), Pixi table tripods and LYKOS LED + dongle (compatible with the Lumimuse app).
