Presenting the Befree Live video kit and head

Befree Live is the first traveler video kit in the Manfrotto video range **Compact, lightweight** and **easy to use** with minimalistic design.

Designed to reliably support video content creation using Compact System Cameras, DSLRs and small camcorders, Befree Live meets all the needs of the expanding video content creation, vlogger and mobile journalist community.

The new Manfrotto Befree Live boasts smooth **fluidity on Pan & Tilt** along with perfect levelling. The tripod reliably supports a **payload of 4kg**, extends to a maximum height of **151cm** and folds down to **40cm**. It weighs only **1.8kg**. It also features a dedicated 501pl video sliding plate to be used with a wide array of camcorders, CSCs and DSLRs and to better control the balance of the equipment. It has a large feet and a special hook for extra stability, regardless of where it is set up.

KEY BENEFITS:

Compact and lightweight

The most compact and lightweight high-quality video tripod, best performance in a carry-on size

Easy to use & set-up

Sliding plate for balancing the camera and leveling column to easily find the perfect position. Larger feet and column hook ensure high stability while shooting.

Fluid Drag System

Manfrotto technology for pan and tilt fluid movement to guarantee smoothest footage

Also available:

Befree Live Fluid Head MVH400AH

Befree Live head features a 40mm base compatible with most tripods.

290 Light Series with Befree Live video head MK290LTA3-V

The 290 Light tripod is now available in a video kit paired with the MVH400AH Befree Live video Head.

Compact and lightweight

Easy to use & set up

Fluid Drag System

40mm base
