

INTRODUCING THE NEW SYMPLA 2.0

LIGHTWEIGHT SHOULDER MOUNTED RIG

MVA525WK

Sympla Lightweight Shoulder Support Kit is a “ready to go” video rig solution that includes all the necessary pieces inside one box, even the counterbalance weight. The Lightweight Shoulder Mounted Rig is one of Sympla kits and it is the Manfrotto lightweight solution that allows support of camera equipment on your shoulder, with swivel-joint handles for perfect control and flexibility. This rig is ideal for use with latest HDSLRs, featuring fast camera connection thanks to RC2 quick release plate. The camera and its lens can be easily controlled accessorising this rig with the new HDSL Remote Controls, which put camera functions at your fingertips while letting you keep a firm grip on both handles.

Kit comprises:

- Shoulder Mount
- Shoulder Pad
- 2x 300mm Rods
- 2x 150mm Rods
- RC2 Mount
- 80mm H-Offset
- Adjustable Handles
- 2x Spacers for handles
- 2x Clips
- 2x Rod Connectors
- Light Counterweight
- Spacer for Counterweight with adaptor.

the Q6 top lock (sold separately) for a Arca Style mounting plates

INTRODUCING THE NEW SYMPLA 2.0 SHOULDER MOUNTED RIG

MVA511WK-1

Sympla Shoulder Support Kit is a “ready to go” video rig solution that includes all the necessary pieces inside one box, even the counterbalance weight. The Shoulder Mounted Rig is one of Sympla kits and allows support of camera equipment on your shoulder, with swivel-joint handles for perfect control and flexibility. This rig is ideal for use with HDSLRs and interchangeable lens camcorders, featuring fast camera connection thanks to the sliding plate with quick release. The Variable Plate is one of the most important component of the rig. This element permits to quickly adjust the position of the camera in combination with all other accessories used, as the mattebox. The video equipment, such as HDSLR or Camcorder, can be easily controlled accessorizing this rig with the new HDSL Remote Controls, which put camera functions at your fingertips while letting you keep a firm grip on both handles.
