Phottix Indra Specific Elinchrom Adapter Super Slim

PH01204

Use Elinchrom reflectors and softboxes on your Phottix Indra-series Studio Light. The Phottix Indra EL Adapter attaches to the Phottix Indra mount and provides a locking adapter ring for Elinchrom Speed Rings. Designed with the assistance of Phottix's Alliance partner, Elinchrom, it was created to be super-slim and minimize the light loss often experienced with deep mount adapters.

The Phottix Indra EL Adapter opens up a whole new world of possibilities, letting owners of Elinchrom reflectors, softboxes, beauty dishes and other accessories work with the award-winning Phottix Indra500 TTL and Indra360 TTL Studio Lights, controlled with the Phottix Odin series of flash triggers.
