

Ring Flash Adaptor

Collapsible

PH37211

stand not included

Modify and control light

The Phottix Aether Collapsible Ring Flash Adaptor turns your hot shoe flash in a ring flash. Ring flash is very popular in fashion and portrait photography, as well as macro and product photography. The Phottix Aether is compatible with most cameras and flashes. It attaches easily and can be used on or off camera.

Unlike many ring flash adapters, the Phottix Aether is very portable and easy to take on location. It's fast to set up, using magnetic rods, and it collapses into an 8" disc – easy to store and transport with the included carrying bag.

Main Features:

Turns hot shoe flashes into a ring flash

Attaches to camera and flash

Use on or off camera

Compatible with many DSLRs and flashes

Fast set-up

Collapses for easy transport
