## Transfolder Softbox Kit

PH82522 - 40x40 Softbox kit

PH82524 - 60x60 Softbox kit

Phottix Cerberus Hot Shoe  
Flash Mount

Phottix Varos BG  
Multi-Function  
Umbrella Holder

Transfolder softbox

Transfolder with  
cerberus mount fitted

The new and improved Phottix Transfolder Softbox. Made to be more durable and work better with speed rings and studio lights. The Transfolder is collapsible - this saves time over traditional softboxes which require rods and speed rings for assembly. It's easy to transport and take on location.

The Transfolder comes in three sizes:

PH82522 - 40x40cm (16"x16")

PH82524 - 60x60cm (24"x24")

The kit includes the Phottix Cerberus Hot Shoe Flash Mount.

Perfect to use with hot shoe flashes or studio lights Phottix Transfolder Softbox creates a soft even light which reduces any photo-spoiling hot spots. The Transfolder can be collapsed and stored in seconds.
