

Padat

Compact Light Stand
Lightweight 2m

PH88215

Enter the new Phottix Padat Compact Light Stand

The first in the new patents-pending Padat series of light stands. Sturdy, reliable, carry it anywhere - and that's just what the Phottix Padat is.

Unlike traditional compact light stands, the Phottix Padat Compact Light Stand folds flat. Because of its innovative design Padat takes up 30% less space making it easy to pack in most gear bags or cases.

This light stand extends to a height of 2 metres from a collapsed length of just 50cm. Weighing only 1.16kg while supporting up to 2.5kg the Padat is perfect for using speedlights or small LEDs on location.

Features:

Extends to 2m

Packs Flat to 50cm

Great for location work

Perfect for hot shoe flashes

Carrying bag included
