

Multi Clamp

with mounting arm

PH86317

Support your lighting

The Phottix Multi Clamp with Mounting Arm allows for a flash or other accessories to be mounted almost anywhere. The clamp can be locked onto a light stand, or secured to any flat surface with the addition of the included plastic insert. Using the mounting arm with its reversible 1/4" or 3/8" spigot, an umbrella swivel, trigger, studio light or other accessories are easy to mount.

Made from a combination of moulded plastic and a tough aluminium alloy the clamp is strong and sturdy without adding excessive weight to a kit bag.

This set includes the 19.5 cm mounting arm and reversible 1/4" - 3/8" spigot (male).

Features:

Attaches to any circular bar or pole

Special plastic insert for attachment to flat surfaces

Locking and reversible 1/4" to 3/8" spigot

19.5cm mounting arm
