

Premio Umbrellas

New: Phottix Premio Umbrellas

Phottix is proud to announce its new series of Phottix Premio Parabolic umbrellas.

Replacing the Phottix "Para-Pro" range – the Premio series features innovative enhancements that continue to make these a premium and durable go-to lighting modifier.

The locking mechanism is a completely new design, making these umbrellas stronger and easier-to-use. After much research and testing the Premio series were created as a deeper umbrella with more flexibility – fitting the workflow and style of any photographer.

The Premio Umbrella series "Shoot-Through"

2 models with 85cm/33" (PH85382) and 120cm/47" (PH85383) sizes.

These umbrellas feature heavy-duty construction, made with fiberglass spokes for cleaner catch-lights and enhanced durability that will stand up to the rigors of on location work as well as in the studio. A black, reflective backing (**sold separately**) is available for the shoot-through models, helping to better control light spill, as well as putting up to 2 stops more light on the target

What's Included:

- Phottix Premio Shoot-Through Umbrella
- Carrying Bag
