

SK-VAM30

Support Vest and Arm

The Sevenoak SK-VAM30 is a lightweight and comfortable vest and arm system designed for a wide range of DSLR and Video cameras

Can be used together with Sevenoak stabilisers SK-SW02N, SK-SW03N or any stabiliser with 12mm or 17mm diameter handles.

SK-VAM30 vest and arm system enables stabilized camera movement and reduced shaking when walking, running, going up and down stairs or travelling over uneven terrain.
